

Wellhouse Leisure has now updated their Toyota Powervan/Granvia conversion to include some excellent new features.

The successful Yorkshire-based business now provides the facelift Powervan or Granvia with optional RIB crash-tested seat, optional 3-way fridge, the latest SMEV split glass hob and sink with integrated taps. In addition, wider cupboards and extra top lockers on both elevating-roof and high-top models mean tons of storage space!

Check out the photos below or visit www.wellhouseleisure.com for more info.
